

## World of Cuisines- Mix of Food & Fun

***“Cookery is not Chemistry, It is an art. It requires instinct and taste rather than exact measurement”***

Little Chef, the Culinary club of DAV, Dwarka organised a live cooking demonstration on 19 July 2014 in which the students were taught three delicious recipes by renowned Chef of International Cruise Chef- Gautam Saluja. He started with a short discussion with students on importance of this club and career prospective in hospitality. Cooking demonstrations featured recipes which can be easily prepared without the use of fire.

Chef Gautam showcased three recipes- Cottage Cheese Canapés, Batata Puri and Cocktail Sandwiches. These recipes were tasty and nutritious. The students enjoyed the dishes prepared by the chef with flavors, textures, and aromas developed specifically to compliment their passion towards cooking and nutritional needs.

Our children already knew a little bit about cooking and culinary adventures but this session helped feed their passion with cooking.
